

TECHNICAL COLLEGE
TCSG
SYSTEM OF GEORGIA

Fast Facts and 2016 College Directory

Letter from the Commissioner

Every day, the 22 individual colleges that make up the Technical College System of Georgia work to ensure a quality education is delivered to our state's students. Each college plays a pivotal role in local workforce development and in contributing to Georgia's economy. Together, we serve Georgia as a workforce development agency, by providing companies with skilled workers and, at the same time, providing a better way of life to our students through richly fulfilling career pathways.

Under Governor Deal's leadership, Georgia is taking an aggressive, multi-faceted approach, partnering with state agencies as well as private organizations and businesses to find innovative solutions that ensure a workforce pipeline for Georgia companies. These solutions enable us to meet students where they are in their lives, and we see them play out in initiatives like dual enrollment, grants for free tuition in strategic industries and much more. As the state's top resource for workforce, TCSG is proud to be a part of the network of public and private partners addressing the skills gap.

In addition to thanking the Governor and the Legislature for their continued support, I applaud the presidents of each of our colleges, their boards, and their entire teams for their accomplishments during the 2015 academic year. Your continual work to champion and support our students is unmatched, and is changing lives on a daily basis. It is an honor to be a part of your team.

Sincerely,

Gretchen Corbin, Commissioner

2015 TCSG Student of the Year

Stephanie Quinn Jackson, a 2015 graduate of the Paralegal Studies program at Georgia Piedmont Technical College, is the Technical College System of Georgia's 2015 Student of the Year. She competed for the top student honor as part of the system's annual Georgia Occupational Award of Leadership (GOAL) program, which recognizes the best students at each of the state technical colleges and one Board of Regents college with a technical division.

Stephanie chose technical education because she believes it offers flexible, convenient and affordable education, blending skilled trade with the nuances specific to real world careers.

Prior to making the decision to return to school after 15 years, Stephanie, a single mom, spent five years as a self-employed writer, caring for her two sons and trying to make ends meet.

She now says, "I wouldn't be here if I only believed in what I thought was possible. We must take a shot at what seems impossible."

In addition to advocating for technical education, Stephanie has served as an intern with the American Civil Liberties Union of Georgia (ACLU) and is now working as a paralegal in the Office of the Attorney General of Georgia.

State GOAL Winner

Georgia Piedmont Technical College

“Technical education makes us realize that what we thought we would never achieve is well within our grasp.”

Dual Enrollment

11,731 Dual Enrollment Students

The New “Move on When Ready Act” of 2015 changed dual enrollment in Georgia, streamlining the process and providing more robust funding for both colleges and schools. The legislation became effective July 1, 2015, and dual enrollment in Georgia has steadily risen, from 5,100 students in AY12 to more than 11,000 students in AY15.

Complete College Georgia

The skills gap that exists within the U.S. has not exempted Georgia. Within five years, more than 60 percent of jobs in our state will require a college certificate or degree, but currently only 42 percent of young adults have them. Governor Deal and higher education leaders are addressing this critical need through Complete College Georgia, with the goal of graduating 250,000 additional students from our technical colleges and our universities by 2025. Through initiatives that encourage students with some college to return to school and graduate, offer free tuition in strategic industries, and expanded dual enrollment, TCSG is assisting the state in fulfilling the workforce needs in the strategic industries identified by the Governor's High Demand Career Initiative.

Advancing college completion in Georgia

State Rick Perkins Award Winner

2015 TCSG Teacher of the Year

Christian Tetzlaff, who has served as the Motorsports Vehicle Program Director on the Oakwood campus of Lanier Technical College since 2010, won the state title for the Rick Perkins Award for Technical Instruction and became the 2015 Technical College System of Georgia's Instructor of the Year.

Christian worked for a number of years in the motorsports industry as a mechanic, pit crew chief and professional race car driver. In addition to holding a diploma in Motorsports Vehicle Technology from Lanier Tech, Christian also holds a Bachelor of Business Administration and a Master's of Education, both from UGA. He chairs Lanier Tech's Complete College Georgia committee and serves on a number of faculty committees. He has touched countless lives through his work at the college and his service to the community.

Christian knows first-hand about the life-changing power of technical education. His father escaped from Communist-controlled East Germany and worked to earn passage on a ship to the United States. All he possessed when he arrived was his technical education as a welder. It was this one skill that enabled Christian's father to build his future. Fifty years later, Christian is committed to helping others build their own future by teaching at a technical college.

Fun Fact: Christian himself was once a graduate of the program that he now directs and is a professional race car driver.

State Rick Perkins Award Winner

Christian Tetzlaff

Customized Contract Training Projects

Georgia's technical colleges work hand-in-hand with companies in their region to ensure they are meeting the workforce training needs of local industry. Each college's Vice President of Economic Development meets with local industry councils during the course of the year to learn about their current and future needs, and connects companies with the college to partner in fulfilling those requirements. Colleges can develop needed curriculum, or offer customized, flexible training specifically designed to meet a company's standards of quality and unique needs.

2015 EAGLE Delegates

State EAGLE Winner

2015 TCSG Adult Learner of the Year

Justin Walters, an Early Childhood Education major at Georgia Piedmont Technical College, was named the state's top Adult Education student for 2015. As the State EAGLE (Exceptional Adult Georgian in Literacy Education) winner, Justin serves as a role model to motivate Georgians to improve their lives through education.

Justin enrolled in Adult Ed because he wanted a second chance at education. In 2013, he joined a program at Georgia Piedmont that allowed him the opportunity to both earn his GED® and a Technical Certificate of Credit (TCC) in Welding. To fulfill his long-term goal of obtaining a bachelor's degree and becoming a teacher, he then enrolled in Georgia Piedmont's Early Childhood Care and Education diploma program.

Justin went on to become Vice President of Membership for the Georgia Piedmont Technical College Student Government Association. He is a certified personal trainer and supports his community by volunteering as an athletic coach at local parks and recreation centers.

Fun Fact: Justin will be the first male in his family to graduate from college when he obtains his degree from Georgia Piedmont!

State EAGLE Winner

Justin Walters

Early Childhood Care & Education

“I achieved my GED®, which has opened so many doors and opportunities for me. It is never too late to better yourself through education.”

TECHNICAL COLLEGE
TCSG
SYSTEM OF GEORGIA

Non-Discrimination Statement:

The Technical College System of Georgia and its constituent Technical Colleges do not discriminate on the basis of race, color, creed, national or ethnic origin, gender, religion, disability, age, political affiliation or belief, genetic information, disabled veteran, veteran of the Vietnam Era, spouse of military member or citizenship status (except in those special circumstances permitted or mandated by law). This nondiscrimination policy encompasses the operation of all technical college-administered programs, programs financed by the federal government including any Workforce Investment Act of 1998 (WIA) Title I financed programs, educational programs and activities, including admissions, scholarships and loans, student life, and athletics. It also encompasses the recruitment and employment of personnel and contracting for goods and services.

The Technical College System and Technical Colleges shall promote the realization of equal opportunity through a positive continuing program of specific practices designed to ensure the full realization of equal opportunity.
