Letter from the Commissioner

The business climate in Georgia is one of the healthiest in the country, and continues to attract world-class companies to our state. In the 2016 Fiscal Year, the Georgia Department of Economic Development announced that 365 companies planned to locate or expand in Georgia, bringing more than 25,000 new jobs.

We know the number one need of new and existing companies is a talented and skilled workforce, and with the number of jobs created in Georgia each year, it's imperative that the Technical College System of Georgia, as the state's top resource for workforce, train our students with both the hard and soft skills that will make them, and the companies they work for, successful.

At TCSG, our presidents, faculty and staff are united in our mission to educate our students and move them into career paths as soon as they are ready. And through the leadership of Governor Deal and our legislators, initiatives like Complete College Georgia, the Move On When Ready dual enrollment program, and the Georgia WorkSmart Apprenticeship program are helping us do exactly that.

In FY16, as always, the Technical College System of Georgia kept a laser focus on workforce development, and preparing students for the jobs that need their talent. We thank our many statewide and local partners for the opportunities they provide our students, and look forward to our continued work together to ensure a pipeline of talented, energetic and exceptional workers that will keep Georgia thriving.

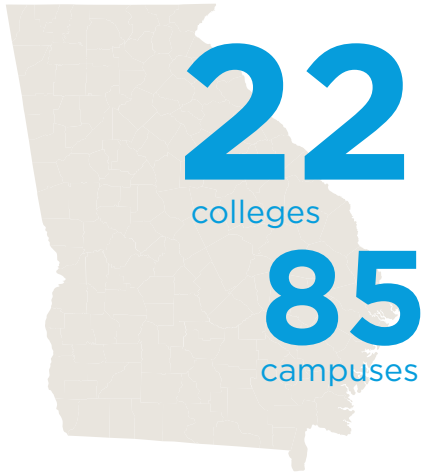

Sincerely,

A handwritten signature in black ink that reads "Gretchen Corbin".

Gretchen Corbin, Commissioner

State GOAL Winner

2016 TCSG Student of the Year

Ashley Rodgers, a 2016 honor graduate of the Marketing Management program at South Georgia Technical College, is the Technical College System of Georgia's 2016 Student of the Year. A native of Macon County, Rodgers says that technical education has helped her find joy in her accomplishments, allowing her to showcase her leadership abilities and become a strong, independent young woman.

At South Georgia Technical College, she was selected as a Student of Excellence and held numerous leadership positions, including president of the Georgia chapter of SkillsUSA. She believes that the support and opportunities she found within the Technical College System of Georgia have been the key to her success.

Rodgers is currently attending Middle Georgia State University on a Presidential Scholarship and has been offered an internship position with a local non-profit organization charged with restoring and re-establishing downtown Macon as a thriving center of economic, cultural and social activity.

"I will be forever grateful to the Technical College System of Georgia for the opportunities it has provided. I wouldn't be where I am today without technical education and I hope to be able to share my story with thousands of others who will benefit from it," says Rodgers.

State GOAL Winner

“I chose technical education because it provides students with the hands-on skills and knowledge needed to succeed in today’s workforce and global economy. Additionally, it offers opportunities to build networking connections and workforce experience, as well as creating various career pathways for students at an affordable price.”

Ashley Elizabeth Rodgers

Workforce Development

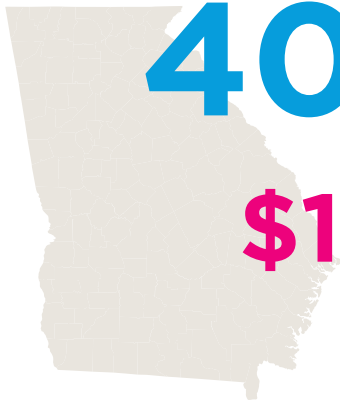

MOWR

MOVE ON WHEN READY @ TCSG

The popularity of dual enrollment continued to increase thanks to the “Move On When Ready” program instituted in 2015. More than 17,000 high school, and even middle school, students got a jump-start on their careers in AY16 by acquiring college credits in both core and technical courses. In fact, Georgia Northwestern Technical College hosted more Move On When Ready students than any other college in the state.

More than **22,000** students were enrolled in the SIWDG programs during the 2016 academic year, and **14,819** diplomas and/or certificates were awarded.

Students enrolled in SIWDG eligible majors increased by **13%** and the number of awards increased by **61%** in AY 2016.*

*The number of majors eligible for SIWDG increased in AY 2016

Complete College Georgia

TCSG is well on its way to meeting the workforce needs of Georgia industry by 2025, the goal set by Complete College Georgia. The system is ahead of its FY16 benchmark by **28,288** students who have completed the requirements for an associate degree, diploma or certificate.

State Rick Perkins Award Winner

2016 TCSG Teacher of the Year

Since 2010, Dr. Angela Hines-Brown has shared her love of children with each student she impacts as an Early Childhood Care and Education instructor on the Coweta campus of West Georgia Technical College.

Through hard work, Dr. Hines-Brown has risen from humble beginnings to become the first person in her family to earn a Ph.D. Her work ethic, determination and love for people are what drives her to make a difference each day.

Dr. Hines-Brown knows through personal experience that real-world, hands-on training empowers a person to succeed, and likes to say that the power of a high-quality technical college education doesn't stop with the student. Dr. Hines-Brown has witnessed this in her own life: her mother, a technical college student, used her education to change her life and open doors of opportunity to her daughters.

Dr. Hines-Brown is now following her mother's example, working hard and paying it forward — investing in the lives of other people who can make a difference for themselves, their families and their community.

In April, Dr. Hines-Brown won the state title for the Rick Perkins Award for Excellence in Technical Instruction and became the Technical College System of Georgia's 2016 Instructor of the Year.

State Rick Perkins Award Winner

Dr. Angela Hines-Brown

Early Childhood Care and Education
West Georgia Technical College

After being named 2016 TCSG Rick Perkins Award winner, Dr. Angela Hines-Brown recounts her life story to the audience.

"I view each of my students as champions. I refine my students' gifts and talent, producing confident career professionals and a skilled workforce. Technical colleges are catalysts for change and provide opportunities for individuals to thrive. I'm honored to teach at a technical college."

TCSG colleges maintain strong and vital connections with companies in their region to ensure they are not only meeting, but anticipating, workforce needs.

College presidents, as well as their vice presidents of economic development, convene industry councils regularly to listen to local business so they can plan to adjust curriculum each semester, if needed, or provide other means of assistance such as customized contract training. System-wide, the demand for this training, in everything from management to industry-specific skills, has continued to increase.

State EAGLE Winner

2016 TCSG Adult Education Student of the Year

Desmond Vaird was named the state's top Adult Education student in March 2016. As the State EAGLE (Exceptional Adult Georgian in Literacy Education) winner, Vaird is recognized for his exceptional achievements in adult education and is a role model for Georgians who seek to improve their lives through education.

Vaird struggled with drug and alcohol abuse and eventually made his way to the Potters House, a Christian recovery center for chemically addicted men. Shortly after his acceptance into the Potters House, Vaird was provided the opportunity to obtain his GED® credential through Lanier Technical College, which he did within five months of arriving at the recovery center. After graduating in March 2015, Vaird immediately enrolled in the University of North Georgia to pursue a degree in elementary education, hoping to one day secure a position in a classroom so he could encourage students to continue their educations.

While serving as Georgia's state ambassador for Adult Education during the EAGLE program's 23rd year, Desmond will raise awareness of educational opportunities in communities around the state and encourage the pursuit of lifelong learning. He plans to pursue motivational speaking for groups like adult learners, middle school students, chemically addicted men and broken families.

State EAGLE Winner

Desmond Vaird
GED® Graduate
Lanier Technical College

Commissioner Gretchen Corbin and 2016 EAGLE winner Desmond Vaird visit with Governor Deal in the Governor's Office.

“Prior to March 2015, I was a statistic. I was a high school dropout, drug addict and alcoholic. Lanier Technical College provided me a second chance, with the opportunity to obtain a GED®, build my confidence and self-esteem and find a better job opportunity. I want my future students to realize the importance of education. And I want them to know that drugs and alcohol have no place in success.”

Partnership Initiatives

Georgia Film Academy

A partnership between TCSG and the University System of Georgia, the Georgia Film Academy started classes in FY16 at Gwinnett Technical College. At the end of the academic year, 45 Gwinnett Tech students had completed the program and trained on-set, gaining valuable experience and making the contacts needed to embark on a career in Georgia's booming film industry.

Prisoner Re-entry

Adult Education and Technical Education are joined at the hip to help prisoners earn post-secondary work credentials.

In FY16, Adult Education served **3,444** students through its correctional programs.

345 inmates obtained or retained employment

337 inmates were able to earn their GED® credential

80 inmates have enrolled in postsecondary education

In Technical Education:

261 inmates obtained a Technical Certificate of Completion (TCC)

2,358 inmates earned an on-the-job (OJT) certificate of completion.

Central Georgia Technical College served a total of **1,666** inmates in credit and non-credit program courses (duplicated number)

SYSTEM OF GEORGIA

Non-Discrimination Statement:

The Technical College System of Georgia and its constituent Technical Colleges do not discriminate on the basis of race, color, creed, national or ethnic origin, gender, religion, disability, age, political affiliation or belief, genetic information, disabled veteran, veteran of the Vietnam Era, spouse of military member or citizenship status (except in those special circumstances permitted or mandated by law). This nondiscrimination policy encompasses the operation of all technical college-administered programs, programs financed by the federal government including any Workforce Investment Act of 1998 (WIA) Title I financed programs, educational programs and activities, including admissions, scholarships and loans, student life, and athletics. It also encompasses the recruitment and employment of personnel and contracting for goods and services.

The Technical College System and Technical Colleges shall promote the realization of equal opportunity through a positive continuing program of specific practices designed to ensure the full realization of equal opportunity.
