A fall cohort is tracked through the following academic year for retained or graduated students. Students in a cohort are retained if they enrolled in any postsecondary institution included in the National Student Clearinghouse (NSC) during the following academic year or graduated from any such institution during the two-year period. The fall cohort (denominator) includes first-time students (full-time or part-time) at that college during the fall or summer semester, excluding prior high school dual enrollment. Students must be regular admits only (not provisional, developmental, or special admit) and may not be high school or transient student type. All major codes are included, including students who are not enrolled in an award program, e.g. IA00.

* TCSG began tracking Measureable Skill Gains in 2018. Prior fiscal year data are not available.

--- Cells containing counts of ten or less are suppressed.

Total enrollment of adult education students who are assessed at an entry educational functioning level (EFL) of less than 6th grade. Enrollment calculation is based on the National Reporting System (NRS) definitions and is a count of the students in the fiscal year (July 1 through June 30) who attended 12 or more hours in an adult education program and were assessed with an entry EFL of Adult Basic Education (ABE) Levels 1-3.

* In 2018, TCSG revised its definition of customized contract training.

Unduplicated count of companies that received customized contract training (CCT) from the college during the fiscal year. Customized contract training is defined as training in which one or more companies request and pay for, or arrange for alternate payment of, the training of their employees. CCT courses may include customized or standard curricula, depending on the type of training requested by the company. Generally, a college establishes a contractual relationship with the company prior to providing customized contract training. Colleges self-report quarterly data in TCSG's Economic Development Data Entry Application.
